To Whom It May Concern:

Re: Mycotoxin risk in Church & Dwight Co., Inc. Arm & Hammer™ Bicarbonate Products

Church & Dwight Co., Inc. Arm & Hammer brand Sodium Bicarbonate, Sodium Bicarbonate blends, Flow K™ Potassium Bicarbonate and Ammonium Bicarbonate are manufactured from inorganic materials. Based on our knowledge of the manufacturing processes and procedures, and controlled handling and storage of the products, there is no potential for mycotoxins (including aflatoxins, Ochratoxin A, Fumonins and vomitoxins) to be present.

Feel free to contact me with any questions.
