Re: Church & Dwight Co., Inc. Arm & Hammer™ Ammonium Bicarbonate and Ammonium Bicarbonate Treated, US Food and Drug Administration (US FDA) Registration of Manufacturing Plants

Church & Dwight Arm & Hammer Ammonium Bicarbonate is manufactured at BASF SE, Carl Bosch Strasse, 67063 Ludwigshafen Germany.

As a food facility, this location is registered with US FDA and is otherwise current with the requirements under the Food Safety Modernization Act (FSMA).

Additionally, the Ludwigshafen facility has third party confirmation of compliance with 21 CFR Part 117, certification of their HACCP plan, FSSC 22000 certification and ISO 9001 certification.

Actual import of Ammonium Bicarbonate into the US is handled by the North American affiliate of BASF and the requirements of Foreign Supplier Verification are fulfilled.

Please feel free to contact me with any questions.
