To Whom It May Concern:

Re: Church & Dwight Co., Inc. Arm & Hammer™ Sodium Bicarbonate Natural Status

Church & Dwight Co., Inc. Sodium Bicarbonate is made from Soda Ash (sodium carbonate), Water, and Carbon Dioxide, which all occur naturally, and it requires no more than minimal processing. These materials are subject only to physical treatments to drive off impurities before they are brought together in our facilities.

The process of making sodium bicarbonate relies on simple manufacturing techniques such as dissolution and control of temperature to form the product. Once formed, centrifuging and drying are used to separate the process water from the product. Reclaimed solution is returned to the process thereby avoiding waste.

Our Responsible Care® certification is evidence of our commitment to environmental stewardship.

Church & Dwight Co., Inc. Sodium Bicarbonate does not contain any artificial flavor or flavoring, coloring ingredient, or chemical preservative (as defined in 21 CFR 101.22), or any other artificial or synthetic ingredient.

No sewage sludge, genetically modified organisms, plant or animal products are used in the manufacture of Church & Dwight Co., Inc. Sodium Bicarbonate. It is not subjected to irradiation, ETO, or other sterilization steps.

Church & Dwight Co., Inc. Arm & Hammer™ brand USP Sodium Bicarbonate contains no additives.
