To Whom It May Concern:

Re: Church & Dwight Arm & Hammer™ Ammonium Bicarbonate Treated and Untreated GRAS Status

Ammonium Bicarbonate is Generally Recognized As Safe per citation in 21 CFR 184.1135 subject only to limitations of good manufacturing practices.

Magnesium Carbonate, the flow aid included in Ammonium Bicarbonate Treated is an FDA GRAS material referenced in 21 CFR 184.1425.

Please feel free to contact me with any questions.
