**Re: Church & Dwight Co., Inc. Arm & Hammer™ Sodium Bicarbonate, CMR Statement**

To determine compliance of Arm & Hammer Sodium Bicarbonate with regard to CMR substances classified in Annex II of EU cosmetic directive 76/768/EEC as amended or in annex II of EU regulation 1223/2009 or substances classified CMR according to annex VI of regulation 1272/2008, please review the appended Elemental Impurities statement.

None of these materials that may be present are intentional additives, but rather technically unavoidable under good manufacturing practice.

The manufacture of Arm & Hammer Sodium Bicarbonate uses 3 raw materials, sodium carbonate, water and carbon dioxide. The sodium carbonate is neutralized to form sodium bicarbonate, but a small amount (<0.23%) of sodium carbonate may remain after processing.

Feel free to contact me with any questions.
