To whom it may concern:

Re: Product recall procedure

Church & Dwight Co., Inc. has developed "Procedure for Product Recall and Market Withdrawal", CHD-SOP-841.1S, which outlines the steps to be taken in the event of the determination by any employee that one of its products does not meet specification or standards and therefore may present a risk or not comply with local laws.

Under this procedure the Product Action Committee is convened by the Chairman and a review of the situation is made. In the event that a recall is judged to be necessary, responsibilities for location of stock and notification of customers are delineated to insure a timely and complete response.

Traceability exercises are conducted a minimum of 4 times per year with an expected recovery of 100 ± 2% within 2 hours.

Mock recalls are conducted annually.

If you have any questions or comments, please feel free to contact me.
